Abstract

The following three sentences were automatically selected from the source text using a trigram language model trained on the full corpus of four sources. Each sentence was scored by the average log-probability of its constituent trigrams. Sentences whose trigrams appear more frequently in the corpus receive a higher score, making them the most *representative* sentences of the source.

- Tin Pan Alley was the first half of the 20th century.
- growth of R&B and country music in the post-war years.
- Rhythm and Blues would become one of the most prevailing influences in popular music in the last half of the 20th century.

1 Named Entity Recognition
