Abstract

The following three sentences were automatically selected from the source text using a trigram language model trained on the full corpus of four sources. Each sentence was scored by the average log-probability of its constituent trigrams. Sentences whose trigrams appear more frequently in the corpus receive a higher score, making them the most *representative* sentences of the source.

- The rock 'n' roll era began nearly 70 years ago in 1955.
- But only four years after Rock Around the Clock had launched the popularity of rock 'n' roll, there was a crisis.
- 1 on the Billboard charts in July of 1955, marking the dawn of the rock 'n' roll era.
